

B	I	N	G	O
TPN	Active Transport	Active Transport	Facilitated Diffusion	Passive Diffusion
I&O	Crystalloids	Skin Turgor	Intravascular	Assessment if fluid & electrolyte imbalances
Oxygen	Restoring fluid volume	FREE SPACE	Third-Spacing	Blood Substitutes
Infusion Pumps	Hypertonic	Concentrated Urine	Hypo-albuminemia	Ports
Hypotonic	Osmosis	Reducing fluid volume	Hypovolemia	Fluid & Chemical Balance

B	I	N	G	O
Restoring fluid volume	Hypertonic	Filtration	Infection	Hypo-albuminemia
Filters	Blood transfusion	Complications	Infiltration	ICF
Hypovolemia	Blood	FREE SPACE	Circulatory Overload	Passive Diffusion
Hypervolemia	Skin Turgor	Third-Spacing	Semipermeable membrane	Assessment if fluid & electrolyte imbalances
Infusion Pumps	Blood Substitutes	Crystalloids	Facilitated Diffusion	Isotonic

B	I	N	G	O
Thrombus Formation	Phlebitis	Oxygen	Intravascular	Potassium
Blood transfusion	Complications	Nursing Implications	ICF	Crystalloids
Osmosis	Infection	FREE SPACE	Infiltration	Active Transport
Fluid replacement or restrictions	Active Transport	I&O	TPN	Circulatory Overload
Water	Venipuncture	Dehydration	Blood Substitutes	Passive Diffusion
