

N	U	R	S	E
team delivery model	ANA	false	scheduling	patient care delivery models
evidence driven processes	staffing specific to nurse fatigue	primary delivery model	ANA principles of nurse staffing	represents an aggregated average number and skill mix
staffing adequacy	the current healthcare system	NURSE	Highly interactive and unpredictable	low validity; misuse of the tool
measuring staffing adequacy	staffing	modular team model	grid-number patients/nurses	patient classification system
functional delivery model	case management delivery system	ratio staffing	true	excessive costs for coverage
