

B	I	N	G	O
We receive training from worker's comp and it is free	Call me back in 6 months	Is it free?	We have specialized trainings	We are a non-profit organization
I am not the only decision maker	We outsource training already	We are in a good place right now	Can I just have a trial now and no demo?	We have had bad experiences with companies like this in the past
We only have in-house training	We use state regulated trainings	FREE	I am too swamped	There are only under 200 employees here so I am not sure we are in need
This isn't a good fit for our company	We have the bare minimum for training to save money	We already have an LMS in place	Send me an email	We are dealing with an audit
Our trainings are hands-on only	I am about to hop into a meeting can't talk right now	We have a tight budget	What is the cost?	I have never heard of your company
