

B	I	N	G	O
The cars were used to traffic cocaine	"Do you have a flux capacitor?"	Car was built in [anywhere but Ireland]	Says that parts are hard to find	John DeLorean is still in jail
Any form of time travel joke	The DeLorean is a very heavy car	Panels are made of aluminum	"Do you own this car?"	Says "Great Scott"
Tells you where to get parts	They know someone who owns / owned a DeLorean	FREE	Any form of "1.21 giga watts" joke	Doors won't open in tight spaces
It was a 'kit car'	Sits in car without asking	John DeLorean died in jail	Doesn't own a DeLorean but argues about facts	No one will insure the car
Does it still run?	Any form of "88 MPH" joke	Polish it with steel wool	Was built by GM / Ford / etc.	Asks if the car is original
