If I share my idea someone will steal it	I can't handle failure	I don't have the support	I'm not talented enough	I'm not destined to succeed.
I don't have enough time to discover what I like	I've never done it before/I don't know how to do it	I'm not motivated enough	I come from a poor background	I'm not smart enough
I'm too old to start	My family and friends don't think I'm capable	FREE	I didn't have the right teachers	I wasn't born in the right area
I will start tomorrow	I'm too easily distracted by other things	I'm just not lucky enough	I have already dedicated myself to a different path.	I'm not educated enough
I don't know if I will succeed	I don't believe I can do it	I'm not ready	This is how I am I was born this way	I don't have the patience
