

B	I	N	G	O
You have a good day!	1 call off	Get told you did a great job!	The vibe is off	Somebody complains about their schedule
Equipment doesn't work like it's supposed	Trapped in an elevator with a patient	The doctor made you genuinely laugh	2 call offs	The shuttle wasn't packed
There was a code called right before you started your shift	You have all the equipment you need for a task before you start it	FREE	A task didn't last as long as you expected it to	Knock over a wet floor sign
Say something that makes your patient worry more	The water machine tests positive for mold	See genitalia when you should not be seeing genitalia	Have the sweetest patient in the world	Somebody steals your lunch
Have family question your ability to be a nurse	A task lasts longer than you expected it to	The shuttle was packed	Your preceptor was super seeet and helpful	Forgetting to pee for over an hour
