

W	A	T	E	R
use water efficiently	boil enough water	harvest rainwater	turn off the water tap after use	plant trees in river watersheds
eliminate plastic use	use soap and detergent sufficiently	reuse waste water	check water bills	take a shower quickly
use a ladle to water	use water-saving household appliances	FREE	check water pipes or leaks regularly	make a schedule for watering plants
make a water filter	use a faucet aerator	make biopore infiltration holes	make a dam	replace tap with a bucket
install a water filter	dig absorption wells	stop dumping waste into river	wash clothes in large quantities	establish groundwater protected areas
