Suppressed your "blackness"	"Can I touch your hair?"	Been racially profiled	Gotten extra nervous around police	Cautious of what you say around white ppl
Been fetishized by a different raced admirer	Love being black	Disliked your features before	Been ashy while wearing lotion	Felt uncomfortable around white people
Had your mental health ignored by your family	Wished To be lighter before	I am black	Been called a N*gger	Been told "black people aren't attractive"
Been told you act white	Had 3 racist jokes made about you in one day	Been told your ghetto	Been to a black barbecue	Cleaned the house to gospel music
Been the only black person in the room	Been called a racially derogatory term	Don't know where your family heritage	Wished there were more black people around	Been made fun of for your nose/lips/skin etc.
