

D	O	N	E	T
Tried cooking something new and burned it	Accidentally sent a cringe text	Had a random argument over nothing	Stalked someone's profile out of curiosity	Played computer games
Got caught singing too loudly	Tried a new snack	Slept in past my alarm	Bought something I immediately regretted	Took a power nap that lasted way too long
Tripped over nothing in public	Cleaned my room	FREE	Made an excuse to cancel plans	Organized my stuff
Took a dumb dare and regretted it	Planned something exciting	Spent time outside	Hung out with friends	Scrolled social media way too long
Got ahead on homework	Stayed up late gaming	Had 'Private time' more than once	Watched a favorite show	Had 'Private time' once.

Had 'Private time' once.	Tried cooking something new and burned it	Had 'Private time' more than once	Took a dumb dare and regretted it	Got ahead on homework
Played computer games	Laughed so hard I almost cried	Took a power nap that lasted way too long	Slept in past my alarm	Tried a new snack
