Used your phone as a mirror in public	Accidentally replied "LOL" in a serious situation	Got a weird DM from a stranger	Saved a random number in your phone but can't remember who it is	Masturbated more than 3 times in a day
Eaten an entire family-sized snack by yourself	Used a meme or TikTok sound in real-life conversation	Pretended to be on a call to ignore someone	Been incredibly horny on your period	Said "you too" to a waiter after they said "enjoy your meal"
Tried to Google something embarrassing in incognito mode	Worn pajamas to the store because you didn't care	FREE	Confused being horny with having to pee	Have an embarrassing morning wood story
Made an excuse to cancel plans	Stalked someones profile picture out of curiosity	Made up an imaginary scenario in your head and got emotional	Had a plan completely derailed by your procrastination	Overthought a text for way too long
Had a nightmare about work or school	Did something illegal	Regretted something you said right after you said it	Worried you were being too loud during you time	Gave yourself pleasure somewhere other than your room
