Thought an hour passed by only to realize it was just 15 minutes	Answer the nurse as though it's Felicity speaking	Counted how many steps it takes to get across the room	Spoke in a weirdly high voice to Felicity	Realize you left something at home you wish you'd brought
Caught yourself doing nothing...	Thought about escaping through the window	Said "I'm fine" but meant "this is wildly inconvenient for me"	Arm fell asleep	Someone walks in without knocking
Tempted to use the call button...just for company	Watched shift change and wished you could go home after 8-12 hours too	FREE	Ask for ice water	Nodded politely at medical terms you didn't understand
Nurse asks you the same question 3 different times	Started harmonizing with the machines beeping	Nurse interrupts Felicity mid-nap	Listened to hallway gossip like it's a podcast	Responded to 7 different texts from people asking how you're doing
Counted how many times Felicity blinked in 30 seconds	Asked for help	Sang a song out loud all the way through	Watched the second-hand circle the clock until you feel sleepy	Completed 100 squats (with or without Felicity)
