You shouldn't speak English to him. He needs to learn German //He can't even understand us.	A concerned worried comment starting with "That poor child..." "I'm just worried about him"	He's cold // He's going to catch a cold with no socks.	We don't like being told when and how long we are allowed to visit.	I'm just telling the truth // just saying what everyone is thinking.
Does he sleep through the night yet? Are you sure it's safe to co-sleep?	You live so far away! You barely visit / your visits are always so short	So disappointing you only have boys // Don't you want to try for a girl? // We need a girl.	Are you STILL breastfeeding? Just a little bit though right?	To Conrad: "Don't you want to come stay with us?"
You cling to him // You never share him.	You think you know everything!	FREE	Are you sure you don't have postpartum depression? You seem like it. I'm just worried for Conrad.	I could have never left my children in daycare.
I need to bond with him alone // He needs to get used to me without you around.	When are YOUR parents coming? How long are they allowed to stay?*Some comparison with my parents*	I raised 13 children. I am the expert!	He's hungry // he's not getting enough to eat //He needs proper food.	My children never did that...//I never did that...//I never could have done that
He's EXACTLY like Philipp // looks like Philipp	Conrad doesn't know us at all // We barely ever see him.	Something negative about our city / the people here / the weather here	You're so ungrateful / You never appreciate our help! // I'm just trying to help!	Everyone makes fun of how messy your house is // You always have stuff lying around.
