When will I get the report?	Ask my wife/husband	"Hold still - quit moving"	Had to reboot my machine/scanner	My patient cancelled
I'm so hot (patient undresses)	Do you have a wheelchair	This table is hard.	It's my other side	Had to call and get a new order
My patient came late to her appt	Radiologist asked for more images have to call the patient back	FREE	Can you tell what's wrong?	It doesn't hurt not sure why I need this.
I don't remember what my surgery was for	I just walked all the way down here	My patient no-showed	I'm absolutely not pregnant.	It's so cold in here/I'm freezing
Patient moved during exam	I don't know why I'm here	I can't do that	I've been on hold for 10 minutes!	How much longer
