

B	I	N	G	O
Has won a game by complete luck	Can imitate a famous person or character	Can do 20 push-ups in a row	Has broken something and successfully fixed it themselves	Has stayed up past 3 AM debugging something
Has memorized more than 50 digits of pi	Has accidentally deleted code they needed and had to recover it	Has used a laser cutter or CNC machine	Has participated in a robotics or automation workshop	Can speak a language other than Sinhala English and Tamil
Has simulated a circuit in Tinkercad or Fritzing	Has used Linux for something other than installing it	FREE	Has worked with sensors or motors	Has a family recipe passed down through generations
Has participated in a robotics competition	Has forgotten someone's name immediately after being introduced maybe	Has had a completely random celebrity encounter	Has taught themselves a programming language without taking a formal class	Has made a spontaneous plan and actually followed through with it
Has sent a handwritten letter or postcard	Has used Arduino Raspberry Pi or ESP32	Has tried a zip line or bungee jump	Has sent a screenshot to the person they were screenshotting	Has competed in a half marathon (21 km) or more

B	I	N	G	O
Has used Linux for something other than installing it	Has gone fishing	Has built something that can operate without human control	Has named a robot or laptop	Has had a completely random celebrity encounter
Has built a project overnight	Has a nickname that came from a completely random incident	Has a unique pet (not dog cat fish bird)	Has participated in a coding competition	Has met a celebrity or a famous person
Has made an LED blink using code	Can type faster than 60 words per minute //they cant prove it at that moment na	FREE	Has a skill they learned before the age of 10 and still uses today	Has successfully recovered a deleted file
Has forgotten someone's name immediately after being introduced maybe	Has a family recipe passed down through generations	Has gotten on the wrong bus or train	Has used a laser cutter or CNC machine	Can speak a language other than Sinhala English and Tamil
Has worked with sensors or motors	Has used a 3D printer	Can solve a Rubik's Cube	Has participated in a robotics competition	Has stayed up past 3 AM debugging something

B	I	N	G	O
Has met someone with exactly the same name as them	Has a YouTube channel/podcast/does social media	Has gotten on the wrong bus or train	Has participated in a coding competition	Has used a 3D printer
Has had a computer crash right before an important deadline	Has met a celebrity or a famous person	Has an unusual fear or phobia	Has built a circuit on a breadboard	Has programmed in C or C
Has written a book	Has sung in the shower	FREE	Has simulated a circuit in Tinkercad or Fritzing	Has programmed a robot to move autonomously
Has tried a VR headset	Has a family recipe passed down through generations	Has accidentally called a teacher "Mom" or "Dad"	Has said "I can fix it" and then made the problem worse	Has sent a handwritten letter or postcard
Has named a robot or laptop	Has named their hotspot something funny	Can imitate a famous person or character	Has forgotten someone's name immediately after being introduced maybe	Can do 20 push-ups in a row
