I've ridden a camel an elephant and of course a horse	At 30 yrs old in Paris I had a job as au pair and lost the boy on my first day	I floated the Ganges River	I'm reading 3 books at the same time	I stood on the equator
I can make a cake with icing from scratch without a recipe	I've never broken a bone	I won bragging rights for the longest and deepest oxy-acetylene metal cutting	At the age of 56 I graduated with two degrees and became a teacher	I've hiked and summited over 10 mountains that are above 14 000 feet elevation
My 16-year-old sister named me	Fall is my favorite season	I placed 12th in the world finals for car stereo sound quality	I play piano	I've been to 30 concerts
I speak a little Spanish with the birthday girl	I'm a 2x Pinwood Derby trophy winner	I had a Tuition Paid Scholarship for all four years at a Big 10 University	I was 4th runner up in the State Beauty Pageant	I attended the Montreal World's Fair Expo in 1967
I've eaten boar	I danced on the Lyric Opera stage	The Mayor of Piraeus Greece invited me for lunch	I flew over the Grand Canyon in a single passenger open frame ultralight aircraft	I like to sing
