

B	I	N	G	O
team delivery model	FALSE	low validity; misuse of the tool	staffing	patient classification system
functional delivery model	staffing specific to nurse fatigue	ratio staffing	TRUE	scheduling
staffing grid	the current healthcare system	NURSE LEADERSHIP	evidence driven processes	patient aquity
patient care delivery models	staffing adequacy	patient classification	modular team model	primary delivery model
measuring staffing adequacy	excessive costs for coverage	represents an aggregated average number and skill mix	workforce management	highly interactive and unpredictable
