You can only coach them so far.	I already see this team coming together.	Obviously we'd like to win the Big Ten Championship this year.	We're gonna take it one game at a time.	These guys will be ready at the start of the season!
It's about teamwork.	With time I know we'll get there.	They have to want to win.	I know you're mad I'm mad too!	We also want them to get a good education.
We're waiting for a few kids to step up as leaders.	You have to lead by example.	FREE	I want players who can communicate with each other.	The past is the past. I'm looking at the future.
There is a long tradition of winning at Purdue.	We're looking for players who want to commit.	These Recruits make me hopeful.	Some of these kids are prima donnas and think they're ready.	These kids work hard.
Purdue fans are the greatest fans in the Big Ten.	I wish I had an answer for that question.	Those who play are the ones who work the hardest.	You've got to be patient with us.	It's all about fundamentals.
