

B	I	N	G	O
a closed figure made by joining line segments	two opposite sides are equal	7 sides	Rhombus	No sides
5 sides	Triangle	Pentagon	3 equal sides	Rectangle
Square	the place where two or more edges meet	FREE	4 equal sides	Both sides go same way
Circle	Septagon	Hexagon	Both side pair equal	Octagon
8 sides	4 unequal sides	Polygon	the straight part of a shape on a plane figure	6 sides

B	I	N	G	O
the place where two or more edges meet	3 equal sides	Rhombus	5 sides	Pentagon
7 sides	the straight part of a shape on a plane figure	No sides	4 unequal sides	Rectangle
Circle	4 equal sides	FREE	Both sides go same way	two opposite sides are equal
Both side pair equal	Polygon	a closed figure made by joining line segments	6 sides	Septagon
Hexagon	Octagon	Square	Triangle	8 sides
