

B	I	N	G	O
-surfer _____	-2 body openings / heart-like organ	-animal without a backbone	-roundworms	-hollow-bodied animal
-Spiny-skinned animals	-sponges	-jelly fish	-Arthropods	-parasites
-segmented worms	-they use tentacles to get food and for protection	FREE	-Mollusks	-coral
-flatworms	-scavengers	-food and waste go in and out of the mouth	-can regenerate	-invertebrate
-body contains many holes	-Simplest group of invertebrates	-nervous system / brain	-tube _____	-_____ have a hollow center
