Wave of nostalgia that Becomes more fleeting with every passing year	Bonfire becomes unbearable after 5 minutes	Days now spent in cold darkness(ignite seasonal depression)	Still unaware of the difference between cider and juice	Pressured into group Halloween costume
Crunch perfectly crisp leaf into tiny little pieces	The color orange has executed its attack on humanity	Realize every Charlie Brown special is kinda sad	But you know you're freezing your buns off in that little jacket	Something unnecessarily pumpkin spiced
Temperature referred to as "sweater weather"	Women's magazines with "layers" on the cover	FREE	Can't pull off beanie look	How do they make those baby pumpkins?
NO ONE goes apple picking	Stop shaving	Person goes insane for pumpkin spice stuff	Girl coily wearing sleeves past her wrists	Purchase bag of Halloween candy for self
Deranged friend wants to go apple picking	Candied apples still gross	See Halloween & Christmas decor in stores	Worst person you know calls it "Autumn"	Cute dog in sweater!!
