

B	I	N	G	O
twitching of the atria	build up of uric acid	fall precautions	poor gas exchange	ischemia of the heart muscle
decreased heart pumping	stiff joints	pain	decrease manual dexterity	regurg of stomach acid
undermining of tissue	decreased caloric intake	FREE SPACE	impaired vision	increased diarrhea
problems swallowing	inflamed colon	poor airway clearance	fistula formation	joint pain
decreased circulation	poor tissue perfusion	developmental delay	unilateral weakness	elevated ALT AST

B	I	N	G	O
undermining of tissue	unilateral weakness	decrease manual dexterity	inflamed colon	decreased heart pumping
poor gas exchang e	increased diarrhea	fall precautions	joint pain	decreased caloric intake
impaired vision	build up of uric acid	FREE SPACE	fistula formation	poor airway clearance
elevated ALT AST	twitching of the atria	developmental delay	problems swallowing	decreased circulation
ischemia of the heart muscle	generalized weakness	regurg of stomach acid	pain	stiff joints
