

B	I	N	G	O
Who knows what an addend is?	Who know how many $\frac{1}{2}$ hours there are in one day?	Who knows what a composite number is?	Who knows what a rhombus is?	Who knows what a numerator is?
Who knows how many 100's are in 10?	Who knows what an acute angle is?	Who knows what a prime number is?	Who knows how many $\frac{1}{2}$'s will create 3 wholes?	Who knows what a quotient is?
Who knows what a sum is?	Who knows what an obtuse angle is?	FREE	Who knows how many 10's are in 1 000?	Who knows what a divisor is?
Who knows what a factor is?	Who knows what a right angle is?	Who knows what a multiple is?	Who knows what a dividend is?	Who knows what a polygon is?
Who knows what a difference is?	Who knows how many 10's are in 100 000?	Who knows what a quadrilateral is?	Who knows what congruent is?	Who knows what a common denominator is?
