

B	I	N	G	O
translation	area	Pythagorean Theorem	expression	quadrant
origin	distributive property	scientific notation	parallel	circumference
reflection	volume	FREE	commutative property	linear
rotation	octagon	radius	one solution	perpendicular
product	linear	infinitely many	outlier	function

B	I	N	G	O
dialation	diameter	parabola	origin	ordered pair
commutative property	rotation	quotient	linear	no solution
scientific notation	circumference	FREE	volume	area
parallel	quadrant	outlier	octagon	equation
expression	perpendicular	product	perimeter	rate of change

B	I	N	G	O
dialation	difference	perpendicular	origin	distributive property
product	outlier	area	linear	Pythagorean Theorem
ordered pair	parabola	FREE	translation	diameter
y intercept	x axis	equation	commutative property	quotient
parallel	exponent	volume	circumference	quadrant
