Now they're going to bed	And I've been doing just fine	Because I want it all	Jealousy turning saints into the sea	Gotta gotta be down
And she's taking a drag	Now I'm falling asleep	I just can't look its killing me	And it's all in my head	It was only a kiss it was only a kiss
Now letting me go	Swimming through sick lullabies	FREE	And my stomach is sick	Choking on your alibis
Coming out of my cage	Now he takes off her dress	Destiny is calling me	But she's touching his chest	How did it end up like this
But it's just the price I pay	And she's calling a cab	It started out with a kiss	While he's having a smoke	And taking control
