Find Someone Who...

What is the P(odd) when roll a dice?	Can find P(heads)	Give an example of a P = 1/2	What is an independent event?	What is a compound event?
Give an example of a 25% probability	What is the P(>5) when roll a dice?	What is a likely event?	Can find P(tails)	What is an impossible event?
What is an unlikely event?	What is the P(prime) when roll a dice?	**FREE**	Give an example of P = 1/6	Knows name of an event that doesn't affect other
Knows what is a tree diagram	What is an organized list?	What is a certain event?	Knows P(even or 5) when roll a dice	What is a dependent events?
Knows P(4) when roll a dice	Give an example of a 0% probability	What is an event that is neither likely or unlikely?	When rolling a dice what is the P(<3)?	Give an example of a 75% probability
