

Theme party at a dorm	4th of July - American Party	Got with someone from a different continent	Said "I'm not going out tonight" and went out	Lost your wallet
Dropped out of a class	Swore off drinking at least once	Post study abroad depression	An experience you have no idea how you survived	Said "I'll only skip today" and clearly lied
Spoke a different language/s with fluidity after a few drinks	Visited 5 different countries	FREE	Bought a secondhand bike	Lied about where you're from
Lost your keys	Spent more money on alcohol than on food	Lost your phone	International dinner	Met over 50 people in the first weeks
Heard way too many times "Where are you from?"	Couldn't close your suitcase when heading back home	Roadtrip	Went to a multi-floor night club	Friends came to visit - Rained every day
