This is stupid	30 000-foot view	How we want to approach it	Ridiculous	In that sense

Thank you so much	Want to hear something crazy?	FREE	Does that sound crazy?	I'm going to throw a number out there . . .
In a lot of ways	Stew on it for a bit	In some respects	I just had to think through it	I'm just making this up
I can't believe I just said/did that	Don't get too 'in the weeds'	Pipeline	Wrap our heads around	How are we doing?
