Wished To be lighter before	Been ashy while wearing lotion	Been the only black person in the room	Had 3 racist jokes made about you in one day	Cleaned the house to gospel music
Been made fun of for your nose/lips/skin etc.	Suppressed your "blackness"	Don't know where your family heritage	Been called a N*gger	Gotten extra nervous around police
Love being black	Wished there were more black people around	I am black	Been called a racially derogatory term	Been told your ghetto
Been told "black people aren't attractive"	Had your mental health ignored by your family	Cautious of what you say around white ppl	Been told you act white	Disliked your features before
Been to a black barbecue	Been fetishized by a different raced admirer	Felt uncomfortable around white people	"Can I touch your hair?"	Been racially profiled
