You watched a squirrel out the window	Combed my hair for work	Had contact with someone from another office	Went to work in my slippers	Started work on time
Found what I was looking for in policy tech on my own.	You missed reading an important email	Too much alone time	Did a load of Laundry on your break	Yoga pants and sweat shirt is the new dress attire for work
Your child had a tantrum on a call	Did something for my own self care	FREE	Junk food for breakfast	Made more than 1 trip to the fridge today
Worked without the tv on today.	Snuggles with a pet	Went out for a least 10 minutes	Had contact with someone from my own office	Thinking "I could use a day in the office to organize"
Drinking too much coffee/tea	Wore shoes today	Had a call from a thankful client	Your dog barked on a conference call	Had a call from an angry client
