Volcano eruption	A traffic jam of abandoned and empty vehicles	Government/authority figure has to warn the public about upcoming events	Technology knocked out	People try to evacuate but there's nowhere to go
Economy crashes	Tsunamis	Plague / new disease / old disease increases in danger	Anarchy / riots start / Government falls	Random people on the street saying the end is near
The ocean rises and floods coastal cities	War	FREE SPACE! alien invasion?	Apocalypse fashion becomes A Thing	Items become currency
Maps made of showing current disaster and how it's spreading	The literal doomsday clock hits midnight	People doing morally terrible things but people are too distracted by everything else to pay attention	Ice age	Pictures of an abandoned city
Heartwarming stories of people putting their life in danger	Earthquakes	President/leader makes a president address (or equivalent)	Wildfires	Famine and starvation
