What's the best and worst thing about getting older?	Do you believe in second chances?	What do you regret not doing?	What or who couldn't you live without?	What gets you out of bed every day?
What are some things you wish you could unlearn?	What's one responsibility you really wish you didn't have?	What is on your bucket list?	Do you believe people are at the whim of destiny or that they can create it themselves?	What would you tell your teenage self if you could go back in time?
What's the best thing you got from your parents?	Do you want to retire to live or live to retire?	FREE	What have you created that you are most proud of?	What do you wish your brain was better at doing?
What animal would you be?	What fictional character do I identify with?	What question do you always want to ask people but don't have the courage to ask?	What gets you fired up?	What mistake do you keep making again and again?
What scares you about the future?	What do you value in a friendship?	What do you say more often in life: yes or no?	What goal are you working on now?	If a crystal ball could tell you anything about your future what would you want to know?
