

Earthquakes and Volcanoes Bingo Call Sheet

This is a randomized list of all 51 bingo events in square format that you can mark off in order, choose from randomly, or cut up to pull from a hat:

seismograph	fault	lagtime	tsunami	contour lines
composite	richter	granitic	crater	fracture
tephra	caldera	primary (p) wave	seismogram	fault
magnitude	upstream	along plate boundaries	depressions	folded
aftershock	normal	explosive	bombs	silica
reverse	ash	strike-slip	mercalli	secondary (s) wave

Earthquakes and Volcanoes

Bingo Call Sheet

This continues the randomized list of all 51 bingo events. The bingo squares are aligned on each page to allow for easier cutting.

basaltic	vent	hatchmarks	earthquakes	faultblock
surface (l) wave focus	volcanic	dormant	steep	seismic waves
active	shield	hot spot	volcano	fracture
3	contour interval	gentle	up-warped	cindercone
extinct
